How to get acknowledgement form of nsr

The following general guidelines are useful for solving technical problems. The NSR website is safe and implements https for transmission, so you may receive a message about it. You must accept the message. Within fifteen minutes, you need to complete the nsr registration. You can use Internet Explorer 6 or 7. Change the screen resolution to 1024 to 768 pixels. In case you have different attempts, then you need to clear the system cache by opening the IE web browser and selecting menu option Tools, then selecting Internet options, and then select deleting cookies to delete cookies. On your IE web browser, you must enable Active X controls. In Internet Explorer, you can do this by selecting the Tools menu options, then internet options, and selecting the Custom Level Security tab. You need to scroll down to find the Run Active X controls and plugins option and check the radio button to activate. You must confirm that pop-up blocking does not work. To select your employer's name and enter a value for each college/university not listed in NSR, a pop-up window is given. You should check your web link. This website can be slow on connections such as dial-up cable and mobile dial-up connection. Save a note for your confirmation number, sign-in ID, and passwords. Registration request: I was advised to register my future employer company, what should we put on the first page of the registration module? NSR has given an alternative to the name of the company that asked you to register and provide the reference number as reference number, quote ID and employee ID with this company. Entering this data accurately helps such a company to record information about your NSR registration and access to your background check or reference profile, etc. Select the name of this company from the list of companies, if the company is not listed, you can select the Other option. In the Quote ID field, you can specify your reference letter, proposal ID, or to-do ID. I forget the confirmation number: I entered the first page of details into the NSR system, and the Confirmation Number was also created by the NSB. However, I do not mark it or forget it. How can I sign in to my professional profile? The NSS system has enabled you to review your incomplete account and fill it out based on a Confirmation Number issued by the NSI system and a password specified by you. You can do this in different sessions. You'll receive the confirmation number of your registered email address. You cannot access your incomplete account if you have forgotten your login ID and you have not noted the confirmation number. This security measure has been taken to prevent unapproved access to your NSR account. Error Collection / Incomplete Details: I Can't Remember Instantly Instantly employee code of previous work, roll number, or some other information and I start filling out the online registration form. Can I add these details later? OR I finished registration and also generated in the form of confirmation, but I realize that I made some mistakes or missed some details, how can I fix this? Yes, once you have generated an ITPIN, you can view your professional NSR account and provide such information. To complete your NSR registration, you have had to fill in the main fields with an asterisk (*). You require to view your nsr professional profile using your login ID, password and ITPIN. Select the Correct data entry errors option. The system asks you to enter the transaction password to make changes to your account. Remember that if background checks are done for any part of your profile, this cannot be changed. Your date of birth and name cannot be changed either. If errors have been made entering these fields, we recommend that you re-enter your information and create a new confirmation number. Confirm print form: I have enter all details and NSR system generates the confirmation format. But I don't get a printout of this form. Can I get a printout later? You can view your profile using the Fill your registration option on the NSI website. After entering the confirmation number issued by the NSR system and username and password, you can see the information you entered and also take the printout of the confirmation form. I have already paid the registration fee by online payment. But after completing the payment, I was not directed back to the NSR website for some reasons. How can I find my payment status? You can view your account using the Fill your registration option on the NSR website and enter the confirmation number issued by the NSR system and login ID and password created by you. you can also generate the form of NSS confirmation. The payment method is saved on this form. If your site asks you to choose the payment method, or if the form is generated but online payment is not given in the form, you should check the payment status. You should send an email nsr@nsdl.co.in in the email by writing the confirmation number and getting advice from them. I'm trying to enter my employment data. My past/present employers company is not on the list? If your current employer company is not listed, send an email to nsr@nsdl.co.in with information about that company's name and website. The list is then updated by NSR and you receive the information relating to it. If your company name from the previous employer is not mentioned in the list, you can add that name, when searching for a company name, the last record in the search is Not listed. If you can't find your company as a result of past search, you'll need to click The NPC system will allow you to enter the company name as text in the company name field. Generating NSR ITPIN: I completed my registration and submitted my biometrics (finger-prints) to POS. How do I know that my ITPIN is generated? How can I see my professional profile? The NSR system will send you an email to your registered email and this email contains your ITPIN. The status of the Itpin generation can be found on the NSW website. This can be done using the Fill your registration option and enter a confirmation number issued by the NSR system and login ID & in your password created by you. if an ITPIN is created, the NSR system will display the same. If the ITPIN is not generated, the NSR system will display the confirmation form. Within seven days of submitting fingerprints, if your ITPIN is not generated, please send an email to nsr@nsdl.co.in, indicating the confirmation number and location of pos where you send the fingerprints. NSR will send you an ITPIN via email that will be sent to your registered email id. The email also contains your NSR eCard. You can download this card from the link written in the email. You can access your profile by using the Access your profile option given on the NSR portal after receiving an ITPIN. You must enter an ITPIN and your sign-in ID and password to access your account. I can't remember the login details in my NSR account and I can't sign in. You can access your NSR profile based on ITPIN, Login, and transaction login/password. These details are very important and should be kept in a note for this information. To retrieve your information, the NSPCC offers the following facilities. You should visit the official NSR . Then click on the link Access your account and select the necessary options as given below. What is my ITPIN? The service point will collect confirmation from you, verify your ID data, collect payment data and biometric data (your fingerprints). Your photo will be scanned by POS. You need to view the scanned image. The scanned image will be displayed in your NSR and eCard profile. Then the TIN (transaction ID) is issued by POS. POS will upload this information to the NSR central system. The NSR system will generate your ITPIN. It also sends an email to your registered email. This ITPIN is your NSR registration number. This will be shown on your NSR card. If you forget ITPIN If you forget ITPIN, you need to click on the link Forget ITPIN and give any of the following details to find ITPIN. Your mother's maiden name and date of birth TIN (After submitting fingerprints, POS issued this number) Confirmation number (generated by the NSA portal) If the data entered is with ITPIN, the NSR system will name and ITP. Save a note for this information. If you forget the login ID, you need to click on the link forget login ID and give your date of birth and ITPIN. The next step is to click the Send button. If the data matches your professional profile, you will receive an email from the NSR system of your registered email id. You must access your registered email ID and find the logon ID for use in the future. If you forget the email ID that is registered in your NSR account or you find it difficult to access the email ID (due to a change of assignment), then you can request to send the email for your username and address of your other email id. The email will be sent to your new ID as well as your registered ID. If you forget an login/password for a transaction, the system does not store clear text passwords. Therefore, you cannot send this password that you created earlier. Therefore, the system gives you the ability to create a new password. You need to click on forget password link and enter your ITPIN as well as login ID data and then click on the Send button. If the information is correct, the system will display the next page. This page will provide you with two procedures for generating the new password. Resent password based on password hint question: During registration of your NSR account you are asked by the system to create a question and answer hint of remembering the password. This will show the question and you need to enter the answer. If your response matches the saved response, the NSR system will allow you to create a new password for your profile. Password recovery based on email ID validation If you are unable to give an answer to a question, then you should use this method. You can reset your login and transaction password and your favorite password reset question/answer using this method. You must enter your login and ITP details and then click the Send button. You can then select the type of password (transaction or login) to change, enter a new password of your choice, and select a new password hint for a question/answer, and then send it. The new password is registered. This password only works when you complete the following procedure. An email including the Password Change Request (PCR) number will be sent to your registered email. After receiving the PCR number, you need to visit the NSR site and submit an ITPIN, as well as the number of PCR and the new password in Reactivate password connection in . Once you have submitted this information, your new password will become active and you can see the using the new password. If if the The NSR email ID has been changed and is not available since your registration, after which you can receive the additional means of sending an email to a currently used and alternate email id. You require you to select an alternate email id. Where can I contact for more questions or information? For more inquiries or information, please contact nsr@nsdl.co.in. I have some registration errors when updating the date of birth, mother's maiden name and gender. How can I correct this data? The NSS allows you to make the necessary changes to your account, such as date of birth/maiden name of the mother/gender. You require you to fill out the data value change form. You can download this form from the NSS portal. After completing this form, you need to go to the POS office with proof of identity and the required fees. Fees.
